CITY OF OTTAWA

NOTICE OF PROPOSED BY-LAW AMENDMENTS ON-FARM DIVERSIFIED USES

The City of Ottawa is proposing By-law amendments to permit small-scale commercial and industrial uses on farms throughout the City.

For proposal details, please visit Ottawa.ca/farmdiversified.

A Zoning By-law amendment report is anticipated to go to Agriculture and Rural Affairs Committee in June 24, 2021.

For further information about this matter, including notification sign up and information about preserving your appeal rights, please contact:

Marika Atfield, Planner II
Planning, Infrastructure and Economic Development
110 Laurier Avenue West, Ottawa, Ontario K1P 1J1
613-580-2424, ext. 41488
marika.atfield@ottawa.ca

613-580-2424, ext. 41488 – Marika.Atfield@ottawa.ca

Notice of Commencement and Online Public Consultation Event Montreal-Blair Road Transit Priority Corridor Municipal Class Schedule C Environmental Assessment Study

Second Public Consultation: online from May 17 to June 11, 2021

The City of Ottawa has initiated the Montreal-Blair Road Transit Priority Corridor (St. Laurent Boulevard to Shefford Road, and 1.2 km north of Montreal Road to Blair Station) Planning and Environmental Assessment (EA) Study to recommend a cost effective and context-sensitive functional design. The EA study will investigate options to improve transit service efficiency and travel environment for all modes. It will include a new bus turnaround and lay-up facility to serve Montreal Station in the vicinity of Highway 174. The project limits are illustrated in the key map.

The EA study is being undertaken in accordance with the Ontario's *Environmental Assessment Act*, fulfilling requirements of a Municipal Class EA process for a Schedule C project. The EA process will involve developing, assessing and evaluating alternatives, leading to a Recommended Plan including a functional design and estimated costs for implementation.

Due to the public health guidelines for COVID-19, this public consultation will occur online for a period of four weeks allowing the stakeholders and the public to review the material and provide feedback.

This public consultation event will consist of a recorded video presentation, display boards and plans and will provide:

- A review of study objectives, need and opportunities, existing conditions and evaluation of alternative solutions;
- Evaluation of alternative designs;
- Preliminary Preferred Design for Montreal Road and Blair Road;
- Preliminary impact assessment and property requirements;
- Implementation and staging recommendations; and
- Next steps.

The information will be available on the City's project website at: ottawa.ca/montrealblairroad.

Your feedback is an important component of the study and can be submitted through the online survey available on the project website, or by sending an email or calling the City's Project Manager.

Interested persons can provide comments throughout the EA Study. Any comments received will be collected under the *Environmental Assessment Act* and, with the exception of personal information, will become part of the public record.

Accessibility is an important consideration for the City of Ottawa. If you require alternative means to provide feedback, please contact the City's Project Manager as noted below. Members of the public are encouraged to submit comments by June 11, 2021.

For further information or to provide comments, please contact:
